

Plastic Free February campaign

Dear

Join us on an exciting journey in February...

A Rocha South Africa, in partnership with A Rocha Netherlands, A Rocha Uganda and A Rocha Portugal, will promote the "Plastic Free February" project that aims to reduce plastic, especially single-use-plastic, in our daily lives, in churches, workplaces and in our homes.

The goal is not only to reduce the amount of plastic we use, but also to share both the difficulties and the solutions found to solve them, whilst reducing.

We need your assistance:

Reply to us with on this email with

- Your name and the town / city where you live.
- One sentence with an original, creative and impactful idea to minimise plastic use.

Your idea might make it onto our Plastic Free February 'Tip for the Day' so looking forward to hearing your ideas.

To follow our Plastic Free February social feed:

- Follow and like us on Facebook and Instagram
- Invite friends to like our Facebook page
- Follow us on Instagram
- Ask your kids to like us on Instagram

Untill next time...

Yours in creation care

Murray Tessendorf
